Schools of the Future: Education for the 21st Century

Why do the children go to school, what knowledge do they need to acquire and what skills should they master? Will these be relevant in the fast changing world, and how equipped is the present education system to impart these skills?

[In this 20 minutes read](#) we look into few most vital aspects of the school education, and also go through path highlighted by experts and thinktanks round the world.

Diversity Equity & Inclusion- the Toolkit to build Organizational Culture

Changing demographics are significantly impacting the workforce. People are living longer and working older; many employers now have five generations to motivate and manage; and the global movement of people is evolving available talent pools. In this changing environment, cultivating a diverse and inclusive approach to talent is more critical than ever.

[In this 10 minutes read](#) we drill down to concept of Diversity, Inclusion, Equality, & Equity. We also check not how this can benefit the organizations and workplaces.

Critical Thinking; a Vital Skill

In number of thinktanks surveys and future of jobs reports, the number one skill that high innovators value most in their talent is critical thinking. The “human factor” of an individual—the ability to think critically and creatively—is more necessary than skills like data science, cybersecurity, or artificial intelligence. Authors like Adam Grant, Jay Mehta & Dr. Judy Chartrand are amongst several experts who outline the importance of critical thinking. [In this 10 minutes read](#) we introduce critical thinking and how to inculcate it in your everyday life. We also provide links to few good articles & research work on the subject.

Igniting Individual Purpose in Life

Realizing our purpose, and working on it is one of the primary quests of life. Right from Bhagwad Geeta to *neo philosophers*; people have tried to make meaning of the purpose of life. *Though often conveniently ignored, we willing or unwilling try to evade what should be the most inspiring reason for our existence.*

[In this article](#) we dwell what is the meaning of purpose in life, how it assists in emotional recover, well-being and healthy life, and it's reflections on our social and professional life
