

Vision Insights Ideas that work!

Special Issue on Center of Excellence (CoE) @ Vision Group of Institutions

VOL. 2, SPECIAL ISSUE

18.7.2021

Smart Road for a Smarter Future

Vision Group of Institutions organized a one day event **Smart Road for a Smarter Future**

for all students of the college. Shri Ajit Pal Singh, Minister of State

for Electronics and Information Technology, Government of UP was the Chief Guest of the event.

The function had number of events including Inauguration of Advance Technology Lab, Launch of Incubation Center for Entrepreneurship & Start-up Cell, and Release of Vision Insights: Ideas that work.

Center of Excellence (CoE) @ Vision Group of Institutions

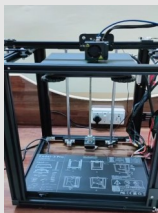

In the context of job disruption, demand for new skills and increased socioeconomic polarization, education systems have a critical role to play in preparing the global citizens and workforces of the future. Education models must adapt to equip the coming generation with the skills to create a more inclusive, cohesive, and productive world.

The **Centre of Excellence (CoE)** of Vision

Group of Institutions are models which centralize the education to the ambitions resonated by the changing time. Our unique initiatives aim to channelize the power of youth to be a better professionals and citizens of tomorrow.

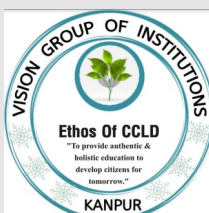

Few Initiatives of Center of Excellence (CoE)

Advance Technology Lab (ATL)

Center for Innovation & Research (CI&R)

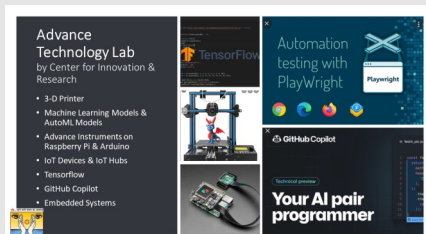

Center for Character & Leadership Development (CCLD)

Entrepreneurship & Start-up Cell (E-Cell)

Advance Technology Lab (ATL)

Welcome to a Lab with cutting edge technology and devices like Additive Manufacturing Machines(3D Printers), Artificial Intelligence Models, dedicated systems developed on Arduino or Raspberry Pi kits, and latest Robots & Automated Machines. **Advance Technology Lab** is an effort to create an environment of scientific temperament, innovation, creativity among our students. It is a step towards a new India. Since the last few decades, our education system has seen a paradigm shift. Today, with this approach of inculcating Hands on Methodology in the current education scenario we have resolved to have this place to assist the students.

Center for Innovation & Research (CI&R)

We earnestly strive to inculcate a culture of innovation and research

amongst the students and staff members. The 'Learning Matrix' followed by our Institution lays special emphasis on innovation and creativity, which is a critical engine for our growth and survival. Research is one of the fundamental tools for systematic investigation into

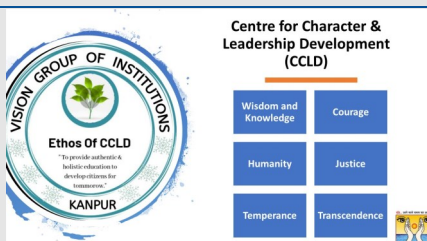

and study of ideas, materials and sources in order to establish facts and reach new conclusions. The **Center for Innovation & Research (CI&R)**

of Vision Group of Institutions aims to foster innovation and research with the regular programs and academics.

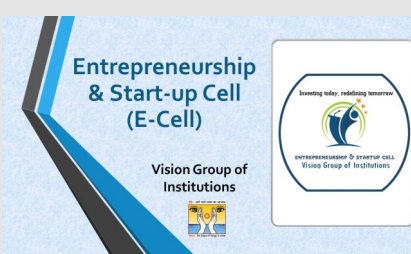

Center for Character & Leadership Development (CCLD)

It is the most visible focal point for understanding, enhancing and integrating College Students and staff efforts to achieve the essential mission of developing citizens of character.

At **Center for Character and Leadership Development (CCLD)** we earnestly wish to ingrain human values of cooperation, compassion, empathy, fairness and concern in all our students. We focus on developing resilience, grit, persistence, self-control, curiosity, conscientiousness, critical thinking and self-confidence as constituent characteristics of our students; which would ultimately aid them in leading a more fulfilling and satisfied life.

Entrepreneurship & Start-up Cell

Entrepreneurship Cell or E-Cell is an initiative of Vision Group of Institutions with aim to prepare future job providers for the country. The cell intends to create an ecosystem for promoting Entrepreneurship and start-ups for students of VGI. The e-cell also provides and

incubation center to support start-ups through all stages of idea evolution and development into a venture.

E-Cell of Vision Group has definitely initiated a new culture and mindset amongst the students and staff.
